VCSU sets spring enrollment record

By: Associated Press, INFORUM

VALLEY CITY, N.D. – Valley City State University has reported a final headcount of 1,306 students for the spring semester, an increase of 7 percent over last year.

This marks the fifth consecutive spring semester of enrollment growth and represents the largest spring semester enrollment since the university moved to a three-semester academic year in summer 1992.

This follows VCSU’s announcement of a fall enrollment of 1,384 students, the largest fall semester enrollment in the University’s history.
