Where to Find the ACT Practice Test:

Start on the Learning Express home page.

You will want to make sure that you are logged into your account before accessing any of the practice tests. If you don’t know how to create an account, please see the guide for creating an account on Learning Express featured on the web page.

Click on the link for Featured Resource List.

In the College Preparation Center, click ACT Practice Tests.

There will be a wide variety of practice tests available based on various subjects. In this example, we will be using ACT English Practice Test 4.
When you click on the test link, if you aren’t logged in, a window will pop up asking for your login credentials. If you have created an account, you will need to choose Login.

In the new window, you will need to provide your user name (email), and password.

The next window will show various settings that you can choose for the practice test. In this example, we will be choosing simulation. When all of the settings are configured, you can then click Start Test and begin the practice test.
