

Scholarships

David Melgaard Scholarship: The David Melgaard Scholarship will be available Fall 2011. This scholarship was established by a very generous gift to VCSU, in honor of Dave Melgaard by Dr. Dawn Olson, a former VCSU Division of Business faculty and her husband, Les Olson, for his years of contribution not only to VCSU but to the state of North Dakota and Career and Technical Education teachers across the state. Dr. Olson's letter to the advancements office notes "a gift to Valley City State University so his name will be remembered at the institution he served so well."

Friends of Business Scholarship: This scholarship available to students pursuing a degree in the field of business. Selection is based on need or merit as determined by the Division of Business and Information Technology faculty.

Mary Heery Scholarship: Mary G. Heery, VCSU business alumnus, made available two \$4,500 annual, renewable scholarships. These scholarships are open to freshman, sophomore, junior, or senior business students. Preference will be given to a Business Administration or Business Education major.

Other scholarships are available, for more information go to:

Enterprise Applications

SAP Hands-on Training

The Division of Business and Information Technology has entered into an agreement with SAP, a leading worldwide provider of Enterprise Resource Planning (ERP) software, to join the SAP University Alliances program. The program allows VCSU faculty to incorporate SAP software into its business and information technology coursework, giving students hands-on experience with popular application software and adding immediate value to their skills in the marketplace. SAP is a provider of collaborative business solutions for all types of industries and every major market. Serving more than 41,200 customers worldwide, SAP is the largest business software company and the world's third largest independent software provider overall.

Alliances

The Division of Business and Information Technology has alliances with Microsoft Developers Network Academic Alliances (MSDNAA), Oracle Academic Alliance, SAP University Alliance Program (SAP UAP), America's SAP Users Group (ASUG) University Connection, and VMWare.

Practical Experience

The Division of Business and Information Technology students are encouraged to earn credits outside the classroom through internships and practical learning experiences. Courses include team and individual projects where students can apply their learning to real-life experiences. Career events provide students the opportunity to visit with employers and managers about their daily work routines. Students also have the opportunity to participate in economic development activities.

Internships

At VCSU, we pride ourselves on giving students the best of content knowledge coupled with real world experience. Because of VCSU's commitment to a technology-based education, our students can become immediately productive in today's workplace. The internship experience offers students the opportunity to gain hands-on experience and network with professionals in their career field.
