If your H: Drive is not mapped automatically upon login, you can map it manually by following these simple steps:

**Step 1:**
Right-click on “My Computer” and select “Map Network Drive.”

**Step 2:**
Input the following:
- **Drive:** H:
- **Folder:** `\jaguar.vcsu.nodak.edu\homes`

![Map Network Drive](image.png)
Step 3:

Click “different user name” text and enter your username and password then click okay for the “Connect As…” window.

Step 4:

Click “Finish” on the “Map Network Drive” window

Step 5:

Your H: Drive window should open and you can start using your network files.
